DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kurt Mulville on May 5, 2005. The application has been amended as follows:

In claim 34, "matrix with a light beam", in line 4, has been changed to --with a light beam--.

Allowable Subject Matter

Claims 34-80 are allowed.

The following is an examiner's statement of reasons for allowance: the closest prior art of record does not teach or render obvious the method for mass spectroscopic analysis comprising irradiating a liquid volume without additional matrix added to the analyte solution with a light beam to desorb solution-specific ions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
